

GlobalTech Solutions ? RFP Response Requirements

Section 1: Executive Summary

GlobalTech Solutions is seeking a comprehensive talent assessment platform to support our 2026 hiring expansion across 14 countries. We require skills-based screening for 3,000+ annual hires across Engineering, Product, Sales, and Operations functions.

Section 2: Functional Requirements

2.1 Assessment Library

- Pre-built question banks covering: Python, Java, SQL, Data Science, Cloud (AWS/GCP/Azure)
- Role-specific assessments: Software Engineer L1-L5, Data Analyst, Product Manager
- Minimum 10,000 validated questions with psychometric rigor documentation
- Custom question authoring with SME review workflow

2.2 Candidate Experience

- Mobile-responsive interface with accessibility compliance (WCAG 2.1 AA)
- Proctoring: AI-based webcam monitoring, screen recording, tab-switch detection
- Estimated completion time displayed before start
- Multi-language support: English, Spanish, German, French, Japanese (minimum)

2.3 Integration Requirements

- HRIS: Workday, SAP SuccessFactors (bidirectional sync)
- ATS: Greenhouse, Lever, iCIMS (webhook + API)
- SSO: SAML 2.0, OAuth 2.0, SCIM provisioning
- Data export: CSV, JSON, PDF reports

Section 3: Evaluation Criteria (Weighted)

Criterion	Weight
Platform functionality	30%
Integration depth	25%
Candidate experience	20%
Security & compliance	15%
Pricing & commercial terms	10%

Section 4: Security & Compliance

- SOC 2 Type II certification required (report < 12 months old)
- GDPR, CCPA, PDPA compliance with DPA available
- Data residency options: US, EU, APAC
- Penetration test results from last 18 months
- ISO 27001 preferred

Section 5: Pricing Requirements

- Per-assessment pricing model preferred
- Volume tiers: 0-500, 501-2000, 2001-10000 assessments/month
- Annual contract with quarterly review clauses
- Pilot: 3-month proof-of-concept for 200 assessments at no cost
